May 4, 2000

REFUGEE COORDINATOR LETTER NO. 00-13

# To County Refugee Coordinators

This letter transmits the Notice of Proposed Availability of Formula Allocation Funding for Fiscal Year (FY) 2000 Targeted Assistance Grants for Services to Refugee in Local Areas of High Need and the Proposed Notice of Allocations to States of Fiscal Year 2000 Funds for Refugee Social Services. These notices were published in the *Federal Register* on May 1, 2000 (Volume 65, Number 84, Pages 25341-25350).

California's total proposed Targeted Assistance (TA) grant is \$7,073,745. This amount which represents a decrease in the amount of \$1,353,932 from last year's final grant, was determined by a formula based on the state's proportion of the national population of refugees arrivals into the state during the five-year period from FY 1995 through FY 1999. Counties eligible to receive funds are those which were determined in FY 1999 according to a formula based on the number of five-year refugee arrivals and the percentage that refugee arrivals represent of the overall county population.

The state's proposed Refugee Employment Social Services (RESS) allocation is \$9,636,007, which is a significant decrease (\$3,976,596) from last year's final allocation of \$13,612,603. This year's allocation was determined by a formula based on the state's proportion of the national population of refugees (including Cuban/Haitian entrants, Amerasians from Vietnam, and Kurdish asylees) who had been in the U.S. three years or less as of October 1, 1999, adjusted for estimated secondary migration. As in FY 1999, the California allocation includes special set-aside funds, this year in the amount of \$1,710,058, for the purposes of 1) providing referral services to ensure refugee access to the Children's Health Insurance Program (CHIP) and other programs for low-income working populations; and 2) providing for the hiring of interpreters and special interpreter training to enable refugees to have equal access to medical and legal services. Services provided under the set-aside funding are not subject to the five-year limitation and may be provided to refugees regardless of their length of residency in the U.S.

Comments on both of the proposed notices must be received by the Office of Refugee Resettlement (ORR) by May 31, 2000. The Refugee Programs Branch (RPB) is reviewing them and will be preparing comments for submittal by the closing date. If counties have comments they wish to be included in the state's comments, they should submit them in writing to the RPB, to the attention of Brad Elftmann, by close of

County Refugee Coordinators (RCL 00-13) Page Two

business on May 18, 2000. If counties wish to offer separate comments directly to ORR, we request that they provide copies to the RPB.

Spreadsheets providing individual county allocations for the FY 2000 RESS and TA programs are being prepared and will be transmitted within the coming weeks. If you have questions regarding the proposed notices, please contact Phyllis Iwasaki, Manager of the Technical Services Bureau, at (916) 654-2387 or Brad Elftmann of her staff at (916) 654-7250.

Sincerely,

Authorities

Robert A. Barron, Chief

Robert A. Barton, Chief Refugee Programs Branch

Administration for Children and Families

Refugee Resettlement Program; Proposed Availability of Formula Allocation Funding for FY 2000 Targeted Assistance Grants for Services to Refugees in Local Areas of High Need

AGENCY: Office of Refugee Resettlement (ORR), ACF, HHS.

ACTION: Notice of proposed availability

of formula allocation funding for FY 2000 targeted assistance grants to States for services to refugees in local areas of high need.

summary: This notice announces the proposed availability of funds and award procedures for FY 2000 targeted assistance grants for services to refugees under the Refugee Resettlement Program (RRP). These grants are for service provision in localities with large refugee populations, high refugee concentrations, and high use of public assistance, and where specific needs exist for supplementation of currently available resources.

This notice continues the eligibility of those 50 counties located in 29 States that previously qualified for and received targeted assistance program (TAP) grants beginning in FY 1999 as a result of the three-year qualification process. The FY 2000 TAP formula allocations are based on the same formula as in FY 1999, updated to reflect arrivals during the five-year period from FY 1995 through FY 1999.

DATES: Comments on this notice must be received by May 31, 2000.

ADDRESSES: Address written comments, in duplicate, to: Gayle A. Smith, Office of Refugee Resettlement, Administration for Children and Families, 370 L'Enfant Promenade, S.W., Washington, D.C. 20447.

APPLICATION DEADLINE: The deadline for applications will be established by the final notice. Applications should not be sent in response to this notice of proposed allocations.

FOR FURTHER INFORMATION CONTACT: Gayle Smith, Director, Division of Refugee Self-Sufficiency, (202) 205– 3590. Federal Register/Vol. 65, No. 84/Monday, May 1, 2000/Notices

#### 25342

## SUPPLEMENTARY INFORMATION:

## I. Purpose and Scope

This notice announces the proposed availability of funds for grants for targeted assistance for services to refugees in counties where, because of factors such as unusually large refugee populations, high refugee concentrations, and high use of public assistance, there exists and can be demonstrated a specific need for supplementation of resources for services to this population.

The Office of Refugee Resettlement (ORR) has available \$49,477,000 in FY 2000 funds for the targeted assistance program (TAP) as part of the FY 2000 appropriation for the Department of Health and Human Services (Pub. L. No. 106–113).

The Director of the Office of Refugee Resettlement (ORR) proposes to use the \$49,477,000 in targeted assistance funds as follows:

\$44,529,300 will be allocated to States under the five-year population formula, as set forth in this notice.

\$4,947,700 (10 percent of the total) will be used to award discretionary grants to States under a separate grant announcement.

The purpose of targeted assistance grants is to provide, through a process of local planning and implementation, direct services intended to result in the economic self-sufficiency and reduced welfare dependency of refugees through job placements.

The targeted assistance program reflects the requirements of section 412(c)(2)(B) of the Immigration and Nationality Act (INA), which provides that targeted assistance grants shall be made available "(i) primarily for the purpose of facilitating refugee employment and achievement of self-sufficiency, (ii) in a manner that does not supplant other refugee program funds and that assures that not less than 95 percent of the amount of the grant award is made available to the county or other local entity."

#### II. Authorization

Targeted assistance projects are funded under the authority of section 412(c)(2) of the Immigration and Nationality Act (INA), as amended by the Refugee Assistance Extension Act of 1986 (Pub. L. No. 99–605), 8 U.S.C. 1522(c); section 501(a) of the Refugee Education Assistance Act of 1980 (Pub. L. No. 96–422), 8 U.S.C. 1522 note, insofar as it incorporates by reference with respect to Cuban and Haitian entrants the authorities pertaining to assistance for refugees established by section 412(c)(2) of the INA, as cited

above; section 584(c) of the Foreign Operations, Export Financing, and Related Programs Appropriations Act, 1988, as included in the FY 1988 Continuing Resolution (Pub. L. No. 100-202), insofar as it incorporates by reference with respect to certain Amerasians from Vietnam the authorities pertaining to assistance for refugees established by section 412(c)(2) of the INA, as cited above, including certain Amerasians from Vietnam who are U.S. citizens, as provided under title II of the Foreign Operations, Export Financing, and Related Programs Appropriations Acts, 1989 (Pub. L. No. 100-461), 1990 (Pub. L. No. 101-167), and 1991 (Pub. L. No. 101-513).

#### III. Use of Funds

Targeted assistance funding must be used to assist refugee families to achieve economic independence in accordance with regulations at 45 CFR Part 400. The term "refugee" includes persons who meet all requirements of 45 CFR 400.43 (as amended by 65 FR 15409 (March 22, 2000)) and 45 CFR 401.2 (Cuban and Haitian entrants). In addition to the statutory requirement that TAP funds be used "primarily for the purpose of facilitating refugee employment" (section 412(c)(2)(B)(i)), funds awarded under this program are intended to help fulfill the Congressional intent that "employable refugees should be placed on jobs as soon as possible after their arrival in the United States" (section 412(a)(1)(B)(i) of the INA). Therefore, in accordance with 45 CFR 400.313, targeted assistance funds must be used primarily for employability services designed to enable refugees to obtain jobs with less than one year's participation in the targeted assistance program in order to achieve economic self-sufficiency as soon as possible. Under 45 CFR 400.316, a State may provide the same scope of services under targeted assistance as may be provided to refugees under 45 CFR 400.154 and 45 CFR 400.155, with the exception of 45 CFR 400.155(h). Targeted assistance services may continue to be provided after a refugee has entered a job to help the refugee retain employment or move to a better job. Targeted assistance funds may not be used for long-term training programs such as vocational training that last for more than a year or educational programs that are not intended to lead to employment within a year.

States may not provide services funded under this notice, except for referral and interpreter services, to refugees who have been in the United States for more than 60 months (five years).

In accordance with 45 CFR 400.314, States are required to provide targeted assistance services to refugees in the following order of priority, except in certain individual extreme circumstances: (a) Refugees who are cash assistance recipients, particularly long-term recipients; (b) unemployed refugees who are not receiving cash assistance; and (c) employed refugees in need of services to retain employment or to attain economic independence.

In accordance with 45 CFR 400.317, if targeted assistance funds are used for the provision of English language training, such training must be provided in a concurrent, rather than sequential, time period with employment or with other employment-related activities.

Refugees who are participating in TAP-funded or social services-funded employment services or have accepted employment are eligible for day care services for children. For an employed refugee, TAP-funded day care should be limited to one year after the refugee becomes employed. States and counties, however, are expected to use day care funding from other publicly funded mainstream programs as a prior resource and are encouraged to work with service providers to assure maximum access to other publicly funded resources for day care.

care.

Reflecting section 412(a)(1)(A)(iv) of the INA, States must "ensure that women have the same opportunities as men to participate in training and instruction." In addition, in accordance with 45 CFR 400.317, targeted assistance services must be provided, to the maximum extent feasible, in a manner that includes the use of bilingual/bicultural women on service agency staffs to ensure adequate service access by refugee women.

In accordance with 45 CFR 400.317. targeted assistance services must be provided in a manner that is culturally and linguistically compatible with a refugee's language and cultural background, to the maximum extent feasible. In light of the increasingly diverse population of refugees who are resettling in this country, refugee service agencies will need to develop practical ways of providing culturally and linguistically appropriate services to a changing ethnic population. Services funded under this notice must be refugee-specific services that are designed specifically to meet refugee needs and are in keeping with the rules and objectives of the refugee program. Vocational or job-skills training, on-thejob training, or English language training, however, need not be refugeespecific.

Finally, in order to provide culturally and linguistically compatible services in as cost-efficient a manner as possible in a time of limited resources. ORR strongly encourages States and counties to promote and give special consideration to the provision of services through coalitions of refugee service organizations, such as coalitions of Mutual Assistance Associations (MAAs), voluntary resettlement agencies, or a variety of service providers. ORR believes it is essential for refugee-serving organizations to form close partnerships in the provision of services to refugees in order to be able to respond adequately to a changing refugee picture. Coalition-building and consolidation of providers is particularly important in communities with multiple service providers in order to ensure better coordination of services and maximum use of funding for services by minimizing the funds used for multiple administrative overhead

The award of funds to States under this notice will be contingent upon the completeness of a State's application as described in section VIII below.

# IV. (Reserved for Discussion of Comments in the Final Notice)

### V. Eligible Grantees

Eligible grantees are those agencies of State governments that are responsible for the refugee program under 45 CFR 400.5 in States containing counties that qualify for FY 2000 targeted assistance awards.

The Director of ORR proposes to determine the eligibility of counties for inclusion in the FY 2000 targeted assistance program on the basis of the method described in section VI of this notice.

The use of targeted assistance funds for services to Cuban and Haitian entrants are limited to States that have an approved State plan under the Cuban/Haitian Entrant Program (CHEP). The State agency will submit a single application on behalf of all county governments that are qualified counties in that State. Subsequent to the approval of the State's application by ORR, local targeted assistance plans will be developed by the county government or other designated entity and submitted to the State.

A State with more than one qualified county is permitted, but not required, to determine the allocation amount for each qualified county within the State. However, if a State chooses to determine county allocations differently from those set forth in the final notice, in accordance with § 400.319, the FY 2000

allocations proposed by the State must be based on the State's population of refugees who arrived in the U.S. during the most recent five-year period. A State may use welfare data as an additional factor in the allocation of its targeted assistance funds if it so chooses: however, a State may not assign a greater weight to welfare data than it has assigned to population data in its allocation formula. In addition, if a State chooses to allocate its FY 2000 targeted assistance funds in a manner different from the formula set forth in the final notice, the FY 2000 allocations and methodology proposed by the State must be included in the State's application for ORR review and

Applications submitted in response to the final notice are not subject to review by State and area-wide clearinghouses under Executive Order 12372. "Intergovernmental Review of Federal

Programs."

## VI. Qualification and Allocation

## A. Qualification

The Director of ORR will determine the qualification of counties for targeted assistance once every three years, as stated in the FY 1999 notice of proposed availability of targeted assistance allocations to States which was published in the Federal Register on March 10, 1999 (64 FR 11927). Since ORR determined the qualification of counties for targeted assistance in FY 1999, those qualifying counties determined eligible in FY 1999 and listed in this notice as qualified to apply for FY 2000 TAP funding would remain qualified for TAP funding through FY 2001 on the basis of the most current five-year refugee/entrant arrival data. ORR does not plan to consider the eligibility of additional counties for TAP funding until FY 2002, when ORR will again review data on all counties that could potentially qualify for TAP funds.

#### B. Allocation Formula

Of the funds available for FY 2000 for targeted assistance, \$44,529,300 would be allocated by formula to States for qualified counties based on the initial placements of refugees, Amerasians, entrants (including Havana parolees), and Kurdish asylees in these counties during the five-year period from FY 1995 through FY 1999 (October 1, 1994-September 30, 1999).

With regard to Havana parolees, in the absence of reliable data on the State-by-State resettlement of this population, we are crediting 47,805 Havana parolees who arrived in the U.S. during the past five years according to the Immigration

and Naturalization Service (INS), using the following methodology. For FY 1999, we credited the qualifying counties with Havana parolees according to arrival numbers supplied to us by the Parolee Orientation Program funded by the International Affairs Office of the INS. For FY 1995 through FY 1998, the Havana parolees for each qualifying county in Florida are based on actual arrival data submitted by the State of Florida; Havana parolees credited to qualifying counties in other States were prorated based on the counties' proportion of the four-year (FY 1995 through FY 1998) entrant population in the U.S. If a qualifying county does not agree

with ORR's population estimate and believes that its five-year population for FY 1995-FY 1999 was undercounted and wishes ORR to reconsider its population estimate, the county must provide the following evidence: The county must submit to ORR a letter from each local voluntary agency that resettled refugees in the county that attests to the fact that the refugees/ entrants listed in an attachment to the letter were resettled as initial placements during the five-year period from FY 1995-FY 1999 in the county making the claim. Documentation must include the name, alien number, date of birth and date of arrival in the U.S. for each refugee/entrant claimed. Listings of refugees who are not identified by their alien numbers will not be considered. Counties should submit such evidence separately from comments on the proposed formula no later than 30 days from the date of publication of this notice and should be addressed to: Loren Bussert, Division of Refugee Self-Sufficiency, Office of Refugee Resettlement, 370 L'Enfant Promenade, S.W., Washington, D.C. 20447; telephone, (202) 401-4732; E-mail: lbussert@acf.dhhs.gov. Failure to submit the required documentation within the required time period will result in forfeiture of consideration.

#### VII. Allocations

Table 1 lists the qualifying counties; the number of refugee (column 3) and entrant (column 4) arrivals in those counties during the five-year period from October 1, 1994-September 30, 1999; the number of Havana parolees (column 5) credited to each county during this period, the total number of arrivals; and the proposed amount of each county's allocation based on its five-year arrival population.

# VIII. Application and Implementation Process

\$44.529.300

Total .....

States that are currently operating under approved management plans for their FY 1999 targeted assistance program and wish to continue to do so for their FY 2000 grants may provide the following in lieu of resubmitting the full currently approved plan:

The State's application for FY 2000 funding shall provide:

 Assurance that the State's current management plan for the administration of the targeted assistance program, as approved by ORR in FY 1999, will continue to be in full force and effect for the FY 2000 targeted assistance program, subject to any additional assurances or revisions required by this notice which are not reflected in the current plan. Any proposed modifications to the approved plan will be identified in the application and are subject to ORR review and approval, e.g., if the State assumes local administration of the program or if the State chooses to determine county allocations differently. Any proposed changes must address and reference all appropriate portions of the FY 1999 application content requirements to

ensure complete incorporation in the State's management plan.

- A line item budget and justification for State administrative costs limited to a maximum of five percent of the total award to the State. Each total budget period funding amount requested must be necessary, reasonable, and allocable to the project.
- All applicants must submit targeted assistance performance goals as described under Section IX.

## IX. Results or Benefits Expected

All applicants must establish targeted assistance proposed performance goals for each of the six ORR performance outcome measures for each targeted assistance county's proposed service contract(s) or sub-grants for the next contracting cycle. Proposed performance goals must be included in the application for each performance measure. The six ORR performance measures are: entered employments, cash assistance reductions due to employment, cash assistance terminations due to employment, 90day employment retentions, average wage at placement, and job placements with available health benefits. Targeted assistance program activity and progress achieved toward meeting performance outcome goals are to be reported quarterly on the ORR-6, the "Quarterly Performance Report."

## X. Reporting Requirements

States will be required to submit quarterly reports on the outcomes of the targeted assistance program, using the same form which States use for reporting on refugee social services formula grants. This is Schedule A and Schedule C, pages 1 and 2 of the ORR—6 Quarterly Performance Report form (OMB #0970-0036).

## XI. The Paperwork Reduction Act of 1995 (Pub. L. 104-13)

This notice does not create any reporting or recordkeeping requirements requiring OMB clearance.

Catalog of Federal Domestic Assistance (CFDA) Number: 93.584

Refugee Resettlement Program: Proposed Notice of Allocations to States of FY 2000 Funds for Refugee Social Services

AGENCY: Office of Refugee Resettlement (ORR), ACF, HHS.

**ACTION:** Proposed notice of allocations to States of FY 2000 funds for refugee social services.

SUMMARY: This notice establishes the proposed allocations to States of FY 2000 funds for social services under the Refugee Resettlement Program (RRP). In the final notice, allocation amounts could be adjusted slightly based on final adjustments in FY 1999 arrivals in some States.

States. This notice includes a \$15.5 million set-aside to: (1) Provide outreach and referral services to ensure that eligible refugees access the State Children's Health Insurance Program (SCHIP) and other programs for low income working populations; and (2) provide specialized interpreter training and the hiring of interpreters to enable refugees to have equal access to medical and legal services.

DATES: Comments on this notice must be received by May 31, 2000.

ADDRESSES: Address written comments,

in duplicate, to: Barbara R. Chesnik, Office of Refugee Resettlement, Administration for Children and Families, 370 L'Enfant Promenade, S.W., Washington, DC 20447.

FOR FURTHER INFORMATION CONTACT: Barbara R. Chesnik, Division of Refugee Self-Sufficiency, (202) 401–4558.

# SUPPLEMENTARY INFORMATION: I. Amounts for Allocation

The Office of Refugee Resettlement (ORR) has available \$143,953,000 in FY 2000 refugee social service funds as part of the FY 2000 appropriation for the Department of Health and Human Services (Pub. L. No. 106–113).

The FY 2000 House Appropriations Committee Report (H.R. Rept. No. 106– 370) reads as follows with respect to social services funds:

The bill provides \$140,000,000 for social services, about the same as the fiscal year 1999 appropriation and \$7,990,000 below the budget request. Funds are distributed by formula as well as through the discretionary grant making process for special projects. The Committee agrees that \$19,000,000 is available for assistance to serve communities affected by the Cuban and Haitian entrants and refugees whose arrivals in recent years have increased. The Committee has set aside.

\$26,000,000 for increased support to communities with large concentrations of refugees whose cultural differences make assimilation especially difficult justifying a more intense level and longer duration of Federal assistance. Finally, the Committee has set aside \$14,000,000 to address the needs of refugees and communities impacted by recent changes in Federal assistance programs relating to welfare reform. The Committee urges ORR to assist refugees at risk of losing, or who have lost benefits, including SSI, TANF and Medicaid, in obtaining citizenship.

In addition, the House report provides:

It is estimated that approximately \$20,000,000 will be available in FY 2000 from carryover funds, and the Committee intends that these funds be used under social services to increase educational support to schools with a significant proportion of refugee children and for the development of alternative cash assistance programs that involve case management approaches to improve resettlement outcomes. Such support should include intensive English language training and cultural assimilation programs.

The FY 2000 Senate Appropriations Committee Report (S. Rept. No. 106– 166) recommended \$147,990,00 for social services in the FY 2000 budget:

The Committee provides \$19,000,000 to serve communities affected by the Cuban and Haitian entrants and refugees, the same as the amount contained in last year's appropriation. The Committee also includes \$14,000,000 to address the needs of refugees and communities affected by recent changes in Federal assistance programs, and \$16,000,000 to assist communities with large concentrations of refugees whose cultural differences make assimilation difficult. These funds are included in the social services line item.

The FY 2000 Conference Report on Appropriations (H.R. Conf. 106—479) reads as follows concerning social services:

The conference agreement includes \$20,000,000 from carryover funds that are to be used under social services to increase educational support to schools with a significant proportion of refugee children and for the development of alternative cash assistance programs that involve case management approaches to improve resettlement outcomes. Such support should include intensive English language training and cultural assimilation programs.

The agreement also includes \$26,000,000 for increased support to communities with large concentrations of refugees whose cultural differences make assimilation especially difficult justifying a more intense level and longer duration of Federal assistance.

The Conference report provided \$143,995,000 in social services funds.

The Departments of Labor, Health, and Human Services, and Education, and Related Agencies Appropriations Act (Pub L. No. 106–113, appendix E, section 301) rescinded discretionary budget authority government-wide by .38 percent. Agencies, however, were provided flexibility regarding how the

recission would be applied.
Accordingly, ORR's total social services appropriation was reduced from \$143,995,000 to \$143,953,000. In accordance with Congressional report language, the Director of the Office of Refugee Resettlement (ORR) proposes to use the \$143,953,000 appropriated for FY 2000 social services as follows:

- \$72,203,750 will be allocated under the 3-year population formula, as set forth in this notice for the purpose of providing employment services and other needed services to refugees.
- \$12,749,250 will be awarded as social service discretionary grants through competitive grant announcements that will be issued separately from this notice.
- \$19,000,000 will be awarded to serve communities most heavily affected by recent Cuban and Haitian entrant and refugee arrivals. These funds would be awarded through a discretionary grant announcement that will be issued separately from this notice.
- \$26,000,000 will be awarded through discretionary grants for communities with large concentrations of refugees whose cultural differences make assimilation especially difficult justifying a more intense level and longer duration of Federal assistance. Awards will be made through announcements issued separately from this notice.
- \$14,000,000 will be awarded to address the needs of refugees and communities impacted by recent changes in Federal assistance programs relating to welfare reform. Awards will be made through announcements issued separately from this notice.
- \$20,000,000 will be awarded in prior year funds to increase educational support to schools with a significant proportion of refugee children and for the development of alternative cash assistance programs that involve case management approaches to improve resettlement outcomes. This support will include intensive English language training and cultural assimilation programs. Awards will be made through an announcement issued separately from this notice.

In addition, we are proposing to add \$15,500,000 in prior year funds to the FY 2000 formula social services allocation as a set-aside for referral and interpreter services, increasing the total amount available for the formula social services program in FY 2000 to \$87,703,750.

Congress provided ORR with broad carry-over authority in the FY 2000 HHS appropriations law to use unexpended FY 1998 and FY 1999 CMA funds for assistance and other activities in the refugee program provided through September 30, 2001. The appropriations law states:

That funds appropriated pursuant to section 414(a) of the Immigration and Nationality Act under Public Law 105–78 for fiscal year 1998 and under Public Law 105–227 for fiscal year 1999 shall be available for the costs of assistance provided and other activities through September 30, 2001.

Refugee Social Service Funds

The population figures for the social services allocation include refugees, Cuban/Haitian entrants, Amerasians from Vietnam, and Kurdish asylees since these populations may be served through funds addressed in this notice. (A State must, however, have an approved State plan for the Cuban/Haitian Entrant Program or indicate in its refugee program State plan that Cuban/Haitian entrants will be served in order to use funds on behalf of entrants as well as refugees.)

The Director is proposing to allocate \$72,203,750 to States on the basis of each State's proportion of the national population of refugees who had been in the U.S. 3 years or less as of October 1, 1999 (including a floor amount for States which have small refugee

populations).

The use of the 3-year population base in the allocation formula is required by section 412(c)(1)(B) of the Immigration and Nationality Act (INA) which states that the "funds available for a fiscal year for grants and contracts [for social services] \* \* \* shall be allocated among the States based on the total number of refugees (including children and adults) who arrived in the United States not more than 36 months before the beginning of such fiscal year and who are actually residing in each State (taking into account secondary migration) as of the beginning of the

fiscal year."
As established in the FY 1991 social services notice published in the Federal Register of August 29, 1991, section I, "Allocation Amounts" (56 FR 42745), a variable floor amount for States which have small refugee populations is calculated as follows: If the application of the regular allocation formula yields

less than \$100,000, then—

(1) A base amount of \$75,000 is provided for a State with a population of 50 or fewer refugees who have been in the U.S. 3 years or less; and

in the U.S. 3 years or less; and (2) For a State with more than 50 refugees who have been in the U.S. 3 years or less: (a) A floor has been calculated consisting of \$50,000 plus the regular per capita allocation for refugees above 50 up to a total of \$100,000 (in other words, the maximum under the floor formula is \$100,000); (b) if this calculation has yielded less than \$75,000, a base amount of \$75,000 is provided for the State.

The Director is also proposing to allocate an additional \$15.5 million from prior year carry-over funds as a setaside to: (1) Provide referral services. including outreach, to ensure that refugees are able to access the State Children's Health Insurance Program (SCHIP) and other programs for low income populations; and (2) provide for the hiring of interpreters and special interpreter training to enable refugees to have equal access to medical and certain legal services. Depending upon the existing capacity and need in the community, we encourage States to use the funds equally for both activities. Both types of services are not subject to the 5-year limitation and may be provided to refugees regardless of their length of time in the U.S. See 45 CFR 400.152(b).

Eligible refugee families often are not aware of, or do not know how to access. other Federal support programs available to low income working families in the community. We believe that these programs, including SCHIP, Food Stamps, Low Income Home Energy Assistance Program (LIHEAP), Medicaid, Head Start, low-income housing, the Special Supplemental Nutrition Program for Women, Infants, and Children (WIC), child care assistance, adult day care for aged dependents, and other support programs for low-income families, are important for the well-being of working refugees, particularly refugee families, and are necessary to help these refugees maintain employment and move toward full self-sufficiency.

The organizations funded by the setaside amount are expected to conduct outreach into the community to identify low-income refugees and to help these refugees enroll in and to be familiar with the services available and the participation requirements of these programs. We expect States to fund community-based organizations, to the maximum extent possible, to provide hands-on assistance, which means having the application forms available and helping refugees to fill out the application, accompanying the refugee to the eligibility office, assisting in the communication between the family and the eligibility worker, closely following the application process until the family has been found eligible, and then helping the family effectively use the service or support program in which they have been enrolled. For example, there may be different levels of medical coverage available to a family, depending on the ages of the children and the income level of the family, each with different requirements. It is important for the caseworkers/advocates funded through this initiative to understand the program requirements (such as a co-payment structure) in order to help the family make decisions and fully participate.

The organizations funded under this set-aside should develop effective ways to provide an on-going link between these services, the population they serve, and the targeted low income programs. Methods might include: partnering with schools to identify refugee children who may be eligible for SCHIP by virtue of their eligibility for the school lunch program; connecting with local Head Start programs to help identify refugee children who are eligible for SCHIP and other health care programs; arranging to have Medicaid eligibility workers visit the Mutual Assistance Association (MAA) or other participating organization on a scheduled basis; and working with other groups serving low income families. such as hospitals, WIC programs, lowincome housing programs, and food assistance programs to make these services widely known to the refugee community being served.

It is also important that States provide as high a standard as possible in interpretation to non-English speaking and to Limited-English-Proficient (LEP) refugees, particularly in regard to medical and legal issues. As mentioned earlier, we are therefore including funding in the set-aside for States to improve the availability and quality of interpreter services for refugees in their communities. The set-aside funds are to be used by States: (1) To fund specialized interpreter training for medical and legal services; and (2) to pay for the hiring and employment of these trained interpreters by MAAs, voluntary agencies, and other community-based organizations serving refugees, to the maximum extent possible, in order to increase the number of skilled interpreters in the

Interpretation requires a great deal of skill—interpreters need to be fluent in English and the language spoken by the refugee. They must have the ability to quickly understand the message and terminology, if technical, in one language and to express it as quickly and correctly in another language. In addition to fluency in two languages, interpreters must have the skills to handle confidential client information and to deal with a variety of professionals in the medical, legal, law enforcement, social services, and other fields.

States should use qualified training programs or trainers to provide the interpreter training. Several strategies

may be employed, e.g., the direct training of interpreters in a group setting, paying the course tuition and associated expenses for individuals at a community college or university, and the training of trainers in order to establish and maintain an efficient training capacity in the community. To the extent possible, we would expect States to use an established curriculum rather than incurring costs to develop a new one. Funding of interpreter services should be directed to areas of greatest need and to the most linguistically isolated communities.

States must determine a community's capacity to ensure refugee access to medical and other services, and then examine how best to fund and maintain interpreter services for refugees based upon the need and size of refugee population. For example, an interpreter bank with dedicated interpreters may be a preferred option if the needs of the community can justify full-time interpreters. However, because the provision of interpreter services may not fully occupy funded staff in some locations or in certain languages, States may choose to train bilingual caseworkers at voluntary resettlement agencies, MAAs and refugee service providers. States may also consider cross-training of interpreters so that they may also assist, for example, in enrolling clients in SCHIP, Medicaid, or other services for low-income clients. and/or serve as case managers or in other staff positions. Staff with both bilingual interpreter skills and knowledge of the family services network, such as child protective services and the domestic violence system, are also highly desirable.

We also encourage States to set up creative ways to maintain and expand the availability of interpreter services in the community, such as seeking reimbursement for services from the courts, hospitals, and agencies which may be able to pay for interpreter services but have been otherwise hindered in providing these services by the lack of available and appropriately trained individuals. Fees from lowincome refugee clients, however, may not be sought.

In light of the unique position that refugee MAAs have in the communities where refugees reside, we are asking that States give special consideration to MAAs in using the set-aside amount, where possible, to provide these services to refugee families. However, qualified community based organizations with refugee experience, voluntary resettlement agencies, or refugee service providers may be funded as well.

A State that can demonstrate that the total amount of set-aside funds awarded is not needed to provide the services described above may submit a written request to the Director to use a portion of the funds for another non-employment service. This request must fully describe how the need for the specified set-aside services is already being met in the State, as well as a description of the additional service proposed, why it is needed, and how it will be provided.

Population To Be Served and Allowable Services

Eligibility for refugee social services includes persons who meet all requirements of 45 CFR 400.43 (as amended by 65 FR 15409 (March 22,2000)) and 45 CFR 401.2 (Cuban and Haitian entrants).

Services to refugees must be provided in accordance with the rules of 45 CFR Part 400 Subpart I—Refugee Social Services. Although the allocation formula is based on the 3-year refugee population, States are not required to limit social service programs to refugees who have been in the U.S. only 3 years. However, under 45 CFR 400.152, States may not provide services funded by this notice, except for referral and interpreter services and citizenship and naturalization preparation services, to refugees who have been in the United States for more than 60 months (5 years).

Allowable social services are those indicated in 45 CFR 400.154 and 400.155. Additional services not included in these sections which the State may wish to provide must be submitted to and approved by the Director of ORR (§ 400.155(h)).

## **Service Priorities**

In the past, a number of States have focused primarily on serving refugee cash assistance (RCA) recipients because of the need to help these refugees become employed and selfsufficient within the 8-month RCA eligibility period. Now, with the passage of welfare reform, refugee recipients of Temporary Assistance for Needy Families (TANF) also face a time limit for cash assistance and need appropriate services as quickly as possible to become employed and self-sufficient. In order for refugees to move quickly off TANF, we believe it is crucial for these refugees to receive refugee-specific services that are designed to address the employment barriers that refugees typically face.

Some States are doing remarkably well in helping refugees achieve self-sufficiency. For this reason, this may be

a good time for these States to reexamine the range of services they currently offer to refugees and expand the range of services beyond employment services to address the broader needs that refugees have in order to successfully integrate into the community.

States should also expect that these funds will be made available to pay for social services which are provided to refugees who participate in Wilson/Fish projects. Section 412(e)(7)(A) of the INA provides that:

The Secretary [of HHS] shall develop and implement alternative projects for refugees who have been in the United States less than thirty-six months, under which refugees are provided interim support, medical services, support [social] services, and case management, as needed, in a manner that encourages self-sufficiency, reduces welfare dependency, and fosters greater coordination among the resettlement agencies and service providers.

This provision is generally known as the Wilson/Fish Amendment. The Department has already issued a separate notice in the Federal Register with respect to applications for such projects (64 FR 19793, April 22, 1999).

# II. (Reserved for Discussion of Comments in Final Notice)

#### III. Allocation Formulas

Of the funds available for FY 2000 for social services, \$72,203,750 is allocated to States in accordance with the formula specified below. In addition, \$15.5 million in set-aside funds are allocated in accordance with the formula specified below. A State's allowable allocation is calculated as follows:

1. The total amount of funds

determined by the Director to be available for this purpose; divided by—2. The total number of refugees, Cuban/Haitian entrants, Amerasians from Vietnam, and Kurdish asylees who arrived in the United States not more than 3 years prior to the beginning of the fiscal year for which the funds are

capita amount is multiplied by—
3. The number of persons in item 2,
above, in the State as of October 1, 1999,
adjusted for estimated secondary
migration.

Refugee Data System. The resulting per

appropriated, as shown by the ORR

The calculation above yields the formula allocation for each State. Minimum allocations for small States are taken into account.

# IV. Basis of Population Estimates

The population estimates for the allocation of funds in FY 2000 are based on data on refugee arrivals from the ORR Refugee Data System, adjusted as

of October 1, 1999, for estimated secondary migration. The data base includes refugees of all nationalities, Amerasians from Vietnam, Cuban and Haitian entrants, and Kurdish asylees.

For fiscal year 2000, ORR's proposed formula allocations for the States for social services are based on the numbers of refugees, Amerasians, Kurdish asylees, and entrants who arrived during the preceding three fiscal years: 1997, 1998, and 1999, based on arrival data by State. Therefore, estimates have been developed of the numbers of refugees and entrants with arrival or resettlement dates between October 1, 1996, and September 30, 1999, who are thought to be living in each State as of October 1, 1999.

The estimates of secondary migration were based on data submitted by all participating States on Form ORR-11 on secondary migrants who have resided in the U.S. for 36 months or less, as of September 30, 1999. The total migration reported by each State was summed, yielding in-and out-migration figures and a net migration figure for each State. The net migration figure was applied to the State's total arrival figure, resulting in a revised population estimate.

Estimates were developed separately for refugees and entrants and then combined into a total estimated 3-year refugee/entrant population for each State. Eligible Amerasians and Kurdish asylees are included in the refugee figures.

Havana parolees (HP's) are enumerated in a separate column in Table 1, below because they are tabulated separately from other entrants. For FY 1999, Havana parolee arrivals for all States are based on actual data. For FY 1998, Florida's HP's (10,183) are based on actual data, while HP's in other States (3,258) are prorated according to the States proportion of the three-year ((FY 1996–FY 1998) entrant populations. For FY 1997, Florida's HP's (3,957) are based on actual data, while HP's in other States (2,035) were prorated according to their proportions

of the three-year entrant population. If a State does not agree with ORR's population estimate and wishes ORR to reconsider its population estimate, it should submit written evidence to ORR, including a list of refugees identified by name, alien number, date of birth, and date of arrival. Listings of refugees who are not identified by their alien number will not be considered. Such evidence should be submitted separately from comments on the proposed allocation formula no later than 30 days from the date of publication of this notice and should be addressed to: Loren Bussert, Division of Refugee Self-Sufficiency,

# DEPARTMENT OF HEALTH AND HUMAN SERVICES

Substance Abuse and Mental Health Services Administration

Current List of Laboratories Which

Meet Minimum Standards To Engage in Urine Drug Testing for Federal Agencies, and Laboratories That Have Withdrawn From the Program

AGENCY: Substance Abuse and Mental Health Services Administration, HHS. ACTION: Notice.

SUMMARY: The Department of Health and Human Services notifies Federal agencies of the laboratories currently certified to meet standards of Subpart C of Mandatory Guidelines for Federal Workplace Drug Testing Programs (59 FR 29916, 29925). A similar notice listing all currently certified laboratories will be published during the first week of each month, and updated to include laboratories which subsequently apply for and complete the certification process. If any listed laboratory's certification is totally suspended or revoked, the laboratory will be omitted from updated lists until such time as it is restored to full certification under the

Guidelines.

If any laboratory has withdrawn from the National Laboratory Certification Program during the past month, it will be listed at the end, and will be omitted from the monthly listing thereafter.

This Notice is available on the internet at the following website: http://wmcare.samhsa.gov

FOR FURTHER INFORMATION CONTACT: Mrs. Giselle Hersh or Dr. Walter Vogl, Division of Workplace Programs, 5600 Fishers Lane, Rockwall 2 Building, Room 815, Rockville, Maryland 20857;

Tel.: (301) 443-6014, Fax: (301) 443-3031.

Special Note: Please use the above address for all surface mail and correspondence. For all overnight mail service use the following address: Division of Workplace Programs, 5515 Security Lane, Room 815, Rockville, Maryland 20852.

SUPPLEMENTARY INFORMATION:
Mandatory Guidelines for Federal
Workplace Drug Testing were developed

in accordance with Executive Order

12564 and section 503 of Pub. L. 100—71. Subpart C of the Guidelines, "Certification of Laboratories Engaged in Urine Drug Testing for Federal Agencies," sets strict standards which laboratories must meet in order to conduct urine drug testing for Federal agencies. To become certified an applicant laboratory must undergo three rounds of performance testing plus an on-site inspection. To maintain that certification a laboratory must participate in a quarterly performance testing program plus periodic, on-site inspections.

applicant stage of certification are not to be considered as meeting the minimum requirements expressed in the HHS Guidelines. A laboratory must have its letter of certification from SAMHSA, HHS (formerly: HHS/NIDA) which attests that it has met minimum standards.

Laboratories which claim to be in the

In accordance with Subpart C of the Guidelines, the following laboratories meet the minimum standards set forth in the Guidelines:

ACL Laboratories, 8901 W. Lincoln Ave., West Allis, WI 53227, 414–328–7840/800– 877–7016, (Formerly: Bayshore Clinical Laboratory)
